J l'm gonna go JIn Trump's Ó'rbita they were protected from the president's insults. 15 minutes from Alaska, as Woodward. What are we dealing with this idiot? Later that month, Dowd told Trump: à € œNo testifies. How many lost members? You have passed your first moment. à € An almost constant issue of the continuous presidential attacks was Attorney General Jeff Sessions. Woodward describes Trump by calling his Egyptian counterpart to ensure the release of an imprisoned charity and President Abdel Fatah al-Sissi saying: Donald, I am concerned about this investigation. They are in the staff! Á € Ivanka Trump, who had special access to the president and worked around Priebus, replied: à € œThe real power is that I don't even want to use the word, à € "The "" "" . A central theme of the book is the stealthy machinations used by those in Trump's interior sanctuary to try to control his impulses and prevent disasters, both for the president personally and for the birth he was chosen to lead. Woodward describes an administrative coup dâ etatâ and a nervous disintegration of the Executive Power, with high -level aid conspiring to remove the official papers from the president's desk so that he could not see or sign them. Again and again, Woodward recounts in detail how Trump's national security team was shaken by his lack of curiosity and knowledge about the affairs of the world and his contempt for the main perspectives of military and intelligence lides. In a meeting of the National Security Council held on January 19, Trump dismissed the importance of the mass military of the United States in the Korean Penal, including a special intelligence operation that allows states .notgnihSAW .notgnihSAW ne artilf es odot euorop .n'Áicpircsnart ase sacllbuq Y .sv sodnuges eteis ne sonaerocron sellsim ed otheimaznal nu ratcetod ed latrom n'Áicatsefinam anu ed " pmurT ed ojenam le rop 7102 ed otsoga ne raicnuner noc 'Ázanema y "lanoiseforp osortitnem nu" omoc etnediserp la raredisnoc a 'Ágell nhóC.ocix©AM y 'ÁdanaC .NACLT led soicos sus noc omoc Ása .ruS led aéroC noc sonimr©At soveun odnaicogen a'Ánitnoc n'Áicartsinimda aL .soretne saAd etnarud etseo ala le odnazilarap secev a ,elbocalpmi omoc aisur ed n'Áicagitsevni al erbos pmurT ed aionarap al y ari al atneserper drawdoow .selatnemanrebuq sotnemucod y selanosrep soiraid ,senoinuer ed saton ne asab es n©Áibmat atneuc uS .NACLT led abariter es euq n'Áicacifiton ed atrac anu 'Átcader retroP .etnediserp led senedr'Á sal n'ÁgeS .otse rech oreiUQ .odasarter etnemlatnem se opit etsE" :alrub ed snoisseS ed otneca le 'Ágerga pmurT .).zirA-R(niaCcM nhóJ .F nhóJ .oiraid a abaicersonem y aÁugesrep seneiug a ,ognar otlâ ed lanosrep led sorbmeim sol a ralatsni a osneporj y onreibog ed senoisevnoc sal ed odarapes elbatseni ovituceje nu a atarter drawdoow ,esuoH ethiW eht edisni .n'Áicacinumoc ed soidem sol y n'Áicargimmi al omoc satejus sal erbos setnegnat sal ed rilas a pmurT ed aicmednet al racilpxe la asir al 'Ácovorp euq oi .otnemom nu ne sogima sus a sittaM ojid , "najabart euq le arap etnediserp la rigele nedeup erpmeis on asnefed al ed soiraterces" .F hpesoJ .nwoityzarC ne somatsE ."detsu ne oÁfnoc oN" :azius euq so±Áa ohco ed ocir rosrevni nu ,ssoR rubilW oicremoC ed oiraterces la ojid el pmurT . " Soldiers on the ground could handle things much better than you," Trump told them. . . . Trump told Porter that Sessions was a "traitor" to accuse himself of overseeing Russia's investigation, Woodward writes. He once instructed Rob Porter to ignore Priebus, although Porter informed the staff chief, saying that Priebus was "like a small rat. John Dowd was convinced that President Trump would commit perjury if he spoke to Special Counsel Robert S. In spring 2017, Trump was eager to withdraw from NAFTA and told Porter: "Why don't we do this? You're kidding me. It is pressing, pressing, pressing. Dunford Jr., president of the Joint Chiefs of Staff, among others, Trump beat a vocal critic. Senator Woodward, associate editor of The Post, sought an interview with Trump through several intermediaries without any benefit. He couldn't even be a lawyer for a country of a person in Alabama." At a dinner with Mattis and Gen. According to Woodward, Cohn "detained a letter to Trump's desk" that the president intended to sign to formally withdraw the United States from a trade agreement with South Korea. Cohn later told a partner that removed the letter to protect national security and that Trump did not notice that it was missing. Cohn made a similar game to prevent Trump from taking the United States out of the North American Free Trade Agreement, something the president has threatened for a long time. Woodward describes an alliance between Trump's traditionalists, including Mattis and Gary Cohn, the president's former economic advisor, to despise what they considered dangerous acts. "I felt like we were walking along the edge of the cliff forever," he quotes Porter as saying. Kelly nhóC nhóC a 'Áifnoc He shared Cohn's horror of managing Trump's tragedy and shared Cohn's fury with Trump. He would have taken that letter of resignation and put it six times in his ass," Kelly told Cohn, according to Woodward. At a small group meeting, Kelly said about Trump: "He's an idiot. Woodward writes that Priebus called the presidential bedroom, where Trump obsessively saw the cable news and tweeted, "the devil's workshop" and said early mornings and Sundays at night, when the president often threw tuitermes, they were "the time of witches." Trump apparently had little regard for Priebus. The president called Woodward in early August, after the manuscript had been completed, to say he wanted to participate. "You walk around this place and act like you're in charge, and you're not. We're going to kill many of them," Trump said, according to Woodward. Mattis told the president he'd do well. This is a man who is." Such moments of panic are a routine feature, but not Woodward's book's momentum, which focuses primarily on substantive decisions and internal disagreements, including tensions with North Korea, as well as the future of U.S. policy in Afghanistan. Woodward tells repeated episodes of anxiety within the government about Trump's handling of the North Korean nuclear threat. We will be much more measured." The national security team developed options for the most conventional air attack that Trump ultimately ordered. Cohn, a Wall Street veteran, tried to reduce Trump's nationalism over trade.
